Instructions for Form FTB 3540

Credit Carryover Summary

References in these instructions are to the California Revenue and Taxation Code (R&TC).

General Information

A Purpose

The Franchise Tax Board (FTB) created this form to provide credit carryover information for repealed credits that no longer have separate credit forms. Use form FTB 3540 to figure and claim a prior year credit carryover of one or more of the repealed credits. Credit carryovers may **not** be carried back and applied against a prior year's tax. The repeal dates for all of the listed credits have passed. However, these credits had carryover features. You may claim these credits **only** if carryovers are available from a prior year(s).

Note: You do not need to complete this form if you file Schedule P (100, 540, 540NR, or 541), Alternative Minimum Tax and Credit Limitations.

C Limitations

In most cases, a credit carryover cannot reduce the minimum franchise tax (corporations, limited partnerships, limited liability partnerships, limited liability companies [LLC], and S corporations), the alternative minimum tax (corporations, exempt organizations, individuals, and fiduciaries), the built-in gains tax (S corporations), or the excess net passive income tax (S corporations).

However, the solar energy credit carryover and the commercial solar energy credit carryover may reduce alternative minimum tax. Get Schedule P (100, 540, 540NR, or 541), Alternative Minimum Tax and Credit Limitations.

If the available credit carryover for the current year exceeds the current year tax, any unused amount may be carried over to succeeding years unless the credit carryover period has expired. Apply the carryover to the earliest taxable or income year(s) possible.

Note: In no event can a credit carryover be carried back and applied against a prior year's tax.

Single Member LLCs (SMLLC)

If a taxpayer owns an interest in a disregarded business entity, an SMLLC not recognized [disregarded] by California for tax purposes treated as a sole proprietorship owned by an individual or a branch owned by a corporation) the credit amount received from the disregarded entity that can be utilized is limited to the difference between the taxpayer's regular tax figured with the income of the disregarded entity, and the taxpayer's regular tax figured without the income of the disregarded entity. An SMLLC may be disregarded as an entity separate from its owner, and is subject to statutory provisions that recognize otherwise disregarded entities for certain tax purposes. Get Form 568, Limited Liability Company Income Tax Return, for more details.

Note: If the disregarded entity reports a loss, the taxpayer may not claim the credit this year but can carry over the credit amount received from the disregarded entity.

Corporate Members of a Unitary or Combined Group

The credit carryover cannot be allocated or otherwise transferred to another taxpayer, even if the other taxpayer is a member of a unitary or combined group or otherwise affiliated with the taxpayer that earned the credit from which the credit carryover originated.
